The Resort

IN COLLABORATION WITH EKEBY BRUK BATH & KITCHEN

Welcome to Freedom of Choice

Ekeby Bruk Bad & Kök designs and delivers interiors for West Estate's residential projects. We work with top-class brands and designs. Our goal is to carefully choose furnishings so that even in the standard configuration, your new home will be anything but ordinary.

The high standard is a given in exclusive homes, but we go a step further. Ekeby Bruk has handpicked every product. The furnishings come from leading brands such as Duravit, Keuco, Hansgrohe, and Miele. World-renowned designer Philippe Starck and directly imported Italian ceramics leave their mark. The heart of the home is the kitchen solution, the latest design "Vida by Ekebybruk," with appliances from Miele. Innovative choice of cooktop from the brand Bora with an integrated downdraft hood. Throughout the floor, there is brushed oak.

It is the sum of the details that creates the whole. It requires careful consideration in your choices. However, sometimes what you had in mind, for various reasons, needs to be reconsidered. This could be due to a product being discontinued, the need for technical adjustments, or other external factors beyond our control. Therefore, we want to be clear that the above room description may change at some point during the journey. However, it will never compromise the overall quality—meaning that the components will be equivalent in terms of function and quality.

Ekeby Bruk Bad & Kök, www.ekebybruk.se, is involved throughout the construction process. We are available and will contact all buyers at the contract signing to inform about our products and discuss any individual preferences.

Material Description
